Bath Bombs

These are available as spheres (standard is 6cm but 5cm and 4cm are also available), mooncakes and many different flat-backed shapes. The photos show just a small selection of the shapes available to order so please feel free to ask if there is something specific you are looking for.

Most are made with coloured embeds inside which are made using water-soluble dyes, designed to colour the bath water. They can, however, be made white, or coloured using micas and pigments that won't affect the colour of the water.

Bath bombs are available in all 40 fragrances listed on pages 2 & 3.

Price - £3 for individual standard size

Prices vary for smaller/larger sizes and for boxed sets

Bath Dust, Rocks (aka Crumble) & Fizzers

Just like bath bombs, these are made to fizz and foam in the bath. But where bath bombs are placed in one spot, these are dispersed over the whole surface of the bath water, creating a colourful array.

Dust is just that – it's dried bath bomb mixture. Rocks and crumble are both mis-shaped miniature bath bombs but crumble tends to be smaller and the packs tend to have more dust in them than the packs of rocks. Fizzers are moulded mini bath bombs and the size depends on the mould.

Usually sold in 100g pouches, bags or jars, they can be made to order in any colour and are available in all 40 fragrance options.

Price - £3 for 100g pouches/bags

£3.50 for Jar of Hearts

Bubble Bars

Bubble bars are bubble bath in solid form. They are not the same as bath bombs. They come in various forms – I make them as slices (think Swiss Roll), scoops (like ice-cream), mooncakes and moulded shapes.

To use them, they are held directly under warm running water, either in the hand and crumbled, or in the provided organza bag (I have found this is the best method) until they are fully dissolved.

They are available in any colour and in the following fragrances:

Perfectly Soft & Gentle

Perfectly Cocomango

Perfectly Playful

Perfectly Fruity

Perfectly Fresh

Perfectly Raspberry Fizz

Perfectly Citrus Cocktail

Perfectly Parma Violet

Perfectly Watermelon

Perfectly Adventurous

Perfectly Spellbound

Perfectly Sweet Lemon

Perfectly Winter

Soap Bars

Although I use the word “bar”, my soaps come in all shapes and sizes – from standard rectangular bars to moulded shapes to 3D animals. I also make massage soaps and soap-on-a-rope. They are made using an SLS-free, glycerine base and can be fragranced or unfragranced, coloured or plain white.

They are available in all 40 fragrance options.

Price - £3 for standard size

£3.50 for massage soaps

Smaller bars vary in price, as do boxed sets

Mini Soaps

These are “fun-size” versions of soap bars and are available as various animals, flowers and Christmas shapes. They come in packs of 4, 6 or 8, depending on the shape.

Like the full-size soaps, they are available in any colour and all 40 fragrance options.

Price - £2.50 & £3 depending on pack size

Soap Crayons & Bath Confetti

My Soap crayons are very popular with children. They are made purely of SLS-free glycerine soap with added colour. I make them unfragranced but fragranced ones can be made specifically to order.

You simply twist the bottom of the tube to push up the soap and use as you would a normal crayon. These are solely for use in the bath or shower though and should not be used as regular crayons. You can draw on skin, bathtubs, showers and bathroom tiles and they easily wipe off with no residue.

They come in a pack of 5 – green, blue, orange, pink and purple.

Price - £3.50

Bath confetti is also popular with children. They are teeny tiny soap shapes – very often glow-in-the-dark (see p.36) – that are scattered in the bath. Children love “diving” for them as they fall to the bottom of the bathtub. Then they can be scooped up and used as regular soap.

Packs usually weigh 25-35g

Price - £2.50

Jelly Soaps

These are so much fun! They are brightly coloured soaps that are solid but they wobble and stretch, just like the jelly you eat.

Not all moulds work with the jelly soap but there are still lots of shapes to choose from.

These are available in the following fragrances:

Perfectly Soft & Gentle

Perfectly Cocomango

Perfectly Playful

Perfectly Fruity

Perfectly Fresh

Perfectly Raspberry Fizz

Perfectly Citrus Cocktail

Perfectly Parma Violet

Perfectly Watermelon

Perfectly Adventurous

Soap Scrubbies

When I originally made these I called them Soap Scrunchies but I recently changed it to Soap Scrubbies. They are full-sized soaps with bath lilies (or puffs, or scrunchies, or whatever you like to call them) partly embedded in them. The soaps can be made any colour but the colour of the bath lilies will be subject to what is available at the time. They are available to order in all 40 fragrance options.

Price - £3.50

Soap Sponges & Bubble Sponges

A Soap sponge is an exfoliating bath sponge which is saturated with the equivalent of a full bar of soap (approx. 120g). So not only is the sponge covered in soap, but it is also full of it. The soap is melted and dries hard but once you wet the sponge, the soap softens and creates lather. With the correct use you can get up to twelve applications from one Soap sponge. Christmas and Special Edition sponges have a small soap decoration on the front.

A Bubble sponge is similar but, instead of glycerine soap, it is saturated with the foaming bath butter (approx. 100g) that I use to make my Bath & Shower Whips. This makes it more of a luxury product which gives lots of super-creamy lather with skin-softening properties. Unlike the Soap sponges, Bubble sponges do not dry hard. One sponge can give up to four applications if used correctly.

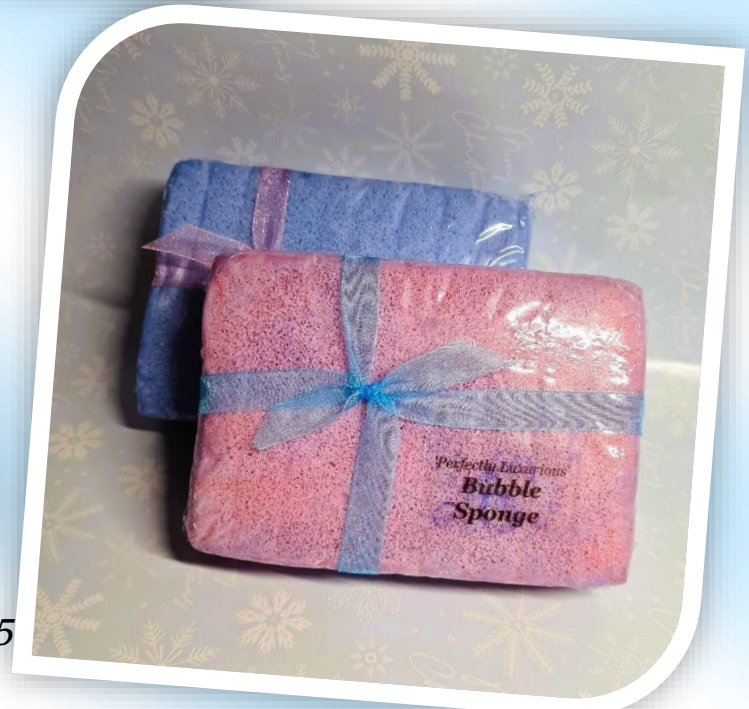

With both sponges, when you are done and want to remove excess water, be careful not to over squeeze or you'll lose precious soap! Squeeze gently and leave to dry ready for the next use.

Both sponges are available in all 40 fragrance options. The sponges themselves come in white, red, blue and green and the soap can be made in any colour. Novelty sponges are subject to availability.

Prices:

Soap Sponge £3.50

Bubble Sponge £4.50

Bath & Shower Whips

These are whipped soaps – they are made of a special soap base with extra ingredients added to it, which is whipped up and piped into pots. You can use them to wash your face, body and hair and they make an excellent shaving foam.

The consistency is hard to describe – it's not entirely solid but it's more solid than a cream; a 'creamy paste' is the best description I can think of.

To use, simply scoop up the desired amount and add water to lather – you don't need much, a little goes a long way!

They are available in all 40 fragrances and come in many colours. An uncoloured, unfragranced option is also available. I prefer to make pastel shades but bright colours can be made on request.

Price - £4.50 (125g)

Body Scrubs

These are the whipped soaps with exfoliants added to them. They are either salt-based or sugar based and the following exfoliants can be added – pumice, jojoba powder, strawberry seeds and green coffee. The salts I use are Dead Sea salt and Pink Himalayan Sea salt. I use either brown or white sugar, depending on which exfoliant I am adding to it.

Like the Bath & Shower Whip, you don't need much for each use.

They are available in the following fragrances:

Perfectly Soft & Gentle

Perfectly Cocomango

Perfectly Playful

Perfectly Fruity

Perfectly Fresh

Perfectly Raspberry Fizz

Perfectly Citrus Cocktail

Perfectly Parma Violet

Perfectly Watermelon

Perfectly Adventurous

An uncoloured, unfragranced option is also available on request.

Price - £7 (150g)

Body Butters

These are thick and creamy body moisturisers. I make them two ways – lightly whipped (by hand) and poured into the pots, which gives you a more solid finish;

fully whipped (with an electric mixer) and piped into the pots, which gives you an airy, mousse-like finish.

Either way gives you the super, long-lasting moisturisation that you'd expect from a body butter.

They are available in the following fragrance options:

Perfectly Soft & Gentle

Perfectly Cocomango

Perfectly Playful

Perfectly Fruity

Perfectly Fresh

Perfectly Raspberry Fizz

Perfectly Citrus Cocktail

Perfectly Parma Violet

Perfectly Watermelon

Perfectly Adventurous

Bubble Bath & Bath Slime

My Bubble Bath comes in vibrant colours and can also be used as a body wash. I use water-soluble dyes which slightly change the colour of the bath water. I also use small amounts of mica which sometimes settles at the bottom of the bottle, but a gentle shake will disperse it.

It is available in the following fragrances:

Perfectly Soft & Gentle

Perfectly Cocomango

Perfectly Playful

Perfectly Fruity

Perfectly Fresh

Perfectly Raspberry Fizz

Perfectly Citrus Cocktail

Perfectly Parma Violet

Perfectly Watermelon

Price – standard bottles (250g) £4

50g shots £1.50

Bath Slime is simply a variation of the bubble bath, designed for children. The fragrance oils that I use all react slightly differently to the mixture – some making it thicker than others - so I use the four that make it the thickest. These are made with non-bleed pigment dyes and will not change the colour of the bath water.

It is available in the following fragrances:

Perfectly Cocomango

Perfectly Playful

Perfectly Raspberry Fizz

Perfectly Watermelon

Price - £3.50 (for 200g)

Shower Gels & Handwash

Very similar to the bubble bath, only less 'bubbly' and more 'lathery'.

Available in six bright colours and ten fragrances, they are gentle body washes suitable for use in both shower and bath.

The handwash is the most recent addition to my range and is a much thinner version of the shower gel. It comes in both a pump and a foaming version.

Both Shower Gel and Handwash are available to order in the following fragrances:

Perfectly Soft & Gentle

Perfectly Cocomango

Perfectly Playful

Perfectly Fruity

Perfectly Fresh

Perfectly Raspberry Fizz

Perfectly Citrus Cocktail

Perfectly Parma Violet

Perfectly Watermelon

Perfectly Adventurous

Price - £4 (250g)

Home Fresheners

My Air Fresheners are made with aroma beads which can either be sold loose in an organza bag or melted down into shapes. Either can be hung anywhere in the home or car, and work best when hung over a heat source. They must not be placed directly onto surfaces though as the fragrance oils may cause damage.

They are available in all 40 fragrances on p.1 plus many more not listed in this catalogue – please ask if there is a particular fragrance or essential oil you would like.

Price – Small £1.50 Large £2.50

Carpet Freshener and Toilet Fresheners are made specifically to order. Please feel free to ask for more information.
